## Dan's Philosophy...

*"My sole purpose when performing is to make sure everyone has a great time. In the words of the early 20th-century master Nate Leipzig, "People don't mind being fooled as long as they are fooled by a gentleman." In order to do my job as a magician, I must deceive you. But I insist on doing it in a way that removes the 'sting'. That's why I treat my audiences with the utmost respect and put the focus on the fun, not the fooling."*
